

SAIS NEWSLETTER NO. 6

May 2012

Dear Parents and Students,

Once again, the end of another school year approaches. The heat wave that has lately struck the UAE has helped bring the last school day for our students from June 25, as originally planned, to June 14. We would like to thank the Sharjah Educational Zone for cooperating with us in this regard.

The teachers have done their best to finish teaching all the required material within the new time frame. Sunday and Monday of next week, June 3 and 4, will be revision days. Our students are encouraged to begin studying now. They need to set their own study schedules that do not neglect any subject.

The school year has been full of the usual events: the National Day, the International Day, the Math & Science Fairs, the IT fair, Earth Day, environmental assemblies and other assemblies organized by students, Sports Days, and sports competitions on and off campus, community work and visits, as well as reporting for the school newspaper (out soon). However, this year we held a Poetry Contest. Fourteen girls and 22 boys competed separately. The students read poems that they wrote dealing with different subjects. The poems varied in length and complexity, but they left the audience awed and happy. The KG graduation, school concert, and the Grade 12 Graduation ceremony are yet to come.

In the end, I would like to thank all of our parents, students, teachers and staff for their cooperation and continued support. Our goals have not changed. We want to always improve SAIS. We strive to give the students the best education possible, to prepare them for university life and beyond.

SAIS Students Excel in Sports

Suood Hussain Musalam Hussain Almaazmi of Grade 5C won 1st place at the UAE chess tournament. Well done Suood!

From the desk of Wing A Coordinator (Grades 1-4), Ms. Deborah Anne Mustafa

Assalaam alaikum and hello dear parents,

End of year Music Concert~

As the year comes to an end, I need to remind you of a few things. First, the end of year concert will be held for the elementary- grades 1-4 on Monday, June 11th. If you haven't already got it, your child's teacher should have sent a letter home explaining what their class will be performing for the concert, as well as seeking your permission for their participation. We highly encourage all students to participate in this wonderful occasion, however, we do understand if you have a reason for not allowing them to dance. If that is the case, the teacher will be happy to find another role for them, such as making props for the set, or decorations, or any other creative job they can think of. This way each child will feel an important role as a participant. Do feel free to speak with me or the homeroom teacher should you have questions or concerns regarding the show.

Sharjah Aquarium~

The students of grade 1 had a wonderful trip to the aquarium. It is so important for them to make connections to nature in their region, while also studying the sea life. I am sure they had much to share and newfound knowledge about the sea if you ask them.

Grades 2,3 and 4 will all be going next week on May 28, 29 and 30th. A permission slip and more information will be sent home with your child.

We can always use more help with supervision. If you would like to **participate as a parent helper, please inform you classroom teacher.**

Reading Buddies~

Reading Buddies has been a big success at school. I am very pleased with the wonderful reading that most of the students are doing at home on a regular basis. Kindly continue to encourage your children to take time away from the electronics and screens to read, the benefits are priceless.

Hot weather~

As the weather temperature increases, please remember to pack a hat for the sun, and also an extra water bottle or money for water.

It is also very important that the students are well nourished and have healthy foods in their lunchboxes. Chips, candy and sugary drinks are not good as they have zero nutritional value. Proteins, veggies, fruits, and grains are all better choices. Please be mindful of this.

Sick children~

It has come to my attention more than once that many parents send their children to school if they have a fever. Fevers are highly contagious, and we do not want or

need the spread of germs and viruses here at SAIS. Many parents send their child to take a quiz or test, and this is simply not fair to the sick child either. Please keep them home and inform me or your child's teacher about their absence and we will happily accommodate the child so that they 'make up' the test when they are back to school, healthy and in good spirits.

Bullying~

Bullying at school is NOT acceptable and will not be tolerated at SAIS. We can't teach children this alone. Parents we need your support at home, by teaching them

non violent ways to resolve conflict. Should your child report bullying to you, please inform me right away so as to take swift and appropriate action.

Lost and found~

Our lost and found items are bursting out of their boxes. If you would like to claim them, please do so by the end May. We will be sending everything to charity very

soon. We have lunch boxes, wallets, jackets, sweaters, and more. Come have a look and maybe you will recover your lost treasures.

Speaking of treasures, your precious children are what inspire me to drive from Dubai to Sharjah each day. The smiles, the hugs, the innocent sense of wonder are priceless. I thank you for sharing them with me.

Warmly,

Deborah

From the desk of Wing B Coordinator (Grades 5-8 Girls), Ms. Carole Abboud

The end of the school year is approaching quickly. Aside from the challenge students tend to face for final exam preparations, the hot weather is also playing a major role in adding to that pressure. Girls are reminded to stay in the shaded areas at break times and drink a lot of water to avoid getting sick. Girls are encouraged to stay in the MS building during lunch breaks if they wish to stay away from the heat.

Middle School girls are busy preparing for the talent show that will be held on the 31st of May 2012. Songs, dances, and short plays will take place in the gym. The attendance is restricted to females only.

The term 3 exam's schedule is included in the newsletter, you are kindly asked to go over it with your daughter(s,) and start planning for the exams by preparing a schedule for revision at home.

Finally, I hope that the 2011/2012 academic year has contributed to fulfilling SAIS mission by instilling in our students the necessary life and academic skills to become active members of tomorrow's society capable of impacting positively their communities.

From the desk of Wing C Coordinator (Grades 9-12 Boys), Mr. Toufic Khachab

The academic year is coming to an end and Term III gives you the last opportunity to improve your grades and pass the year with flying colors.

The final exams are coming soon for the current school year. Term three exams will account for 40% of the total average. So it is time to prepare well, put effort and work harder than before to get the results that you wish.

In this term, the students will not have a final exam in Social Studies. Student evaluation in Social Studies will be based on the projects they will have already done.

Students will be given revision sheets to guide them in their study. I encourage students to set their own study schedule making sure that they have the time needed for each subject.

- SET PRIORITIES

Decide to do well. **MAKE IT A TOP PRIORITY!** This means giving up some things in order to achieve your most important goals. It's a simple fact of life - you're not going to be able to do everything you want to do. Although all students want to succeed in their classes, only those who make it a top priority are likely to do so.

- COMPLETE ALL REQUIRED ASSIGNMENTS ON TIME:

Complete all required assignments. Complete them on time. Proofread and correct written assignments before you turn them in. Make sure your written work is neat, easy to read, and easy to understand. Turn in all assignments on-time. Keep a copy for future reference.

- STUDY EVERY DAY:

Follow a study schedule. Find times and places that allow you to concentrate. It is much better to study a few hours every day then to do all of your studying the day before the exam.

- GET HELP RIGHT AWAY:

Do you sometimes feel like you are spending a lot of time studying, but still don't do well on tests, quizzes, and other assignments? This may be because you are memorizing a lot of information that you really don't understand. If this is the case, you may have difficulty answering questions when information is presented in a new context or worded in a new way. As a result, test questions may often seem confusing or "tricky". Another possibility is that you may be learning many isolated facts, but really don't see the big picture, the key concepts, and how things are related to each other. If you don't understand something, or if you are having trouble seeing the big picture, you need to ask questions. Never just copy or memorize information that you don't understand - that's a **BIG** waste of time.

This year's graduation ceremony will be held in the Main Auditorium at the American University of Sharjah under the patronage of Dr. Humaid Al Qutami, Minister of

Education on Thursday June 14, 2012. The graduating classes from the two SAIS branches, in Sharjah and Dubai, will be celebrating this event together.

From the desk of Wing D Coordinator (Grades 5-8 Boys), Mr. Kassem Zayour

The weather is becoming really hot which makes students overactive. So we ask you to advise our students about the proper ways of dealing with such weather. Help us remind them to be aware of the heat, not to play too much under the sun, and to drink water regularly.

In the coming week(s), students in grades 4 to 8 will be administered for the end of year assessment to measure student performance in term 3 and the whole year. Time management is a very important tool to catch up with work and to perform successfully. It is important that students are well-rested, eat a good breakfast and are in attendance during the days of the testing. Please encourage your son or daughter to do their best during these assessments.

I wish you all good luck and good achievement for the coming period

From the desk of Wing E Coordinator (Grades 9-12 Girls) & Career Guidance Counselor, Ms. Noha Naamani

As the year is drawing to its end, all students and parents are already starting to plan things for the coming year. Grade 12 students have already sent their college applications and have received or waiting to receive their acceptances. Almost all grade 11 students have sat for their SATs and TOEFL exams or are in the process of registering for the next session. Grade 10 students should be in the midst of deciding what courses to take in the following 2 years as the school has a variety of courses to offer in grades 11 and 12.

If your child needs assistance in choosing their elective courses for the following year, he/ she is advised to sit and discuss the matter with their coordinator.

I would like to thank all parents for their support and cooperation this year and would like to thank all our students for their perseverance and hard work. High school girls showed a big amount of dedication in all their activities and organized work and I would like to congratulate every single student for their respect for all school rules and for their love to their school.

From the desk of Wing F Coordinator (KG1 & KG2), Ms. Dionne Zantua

What a remarkable school year for the KG department! We are proud of the progress our students achieved and all their wonderful learning. As the year draws to a close, we remember all the wonderful memories that have made this year a memorable one.

Our year was filled with enriching experiences such our field trips to the Al Rashidiya Park, Sharjah Aquarium and The Discovery Centre. We also participated in celebrations such as the National Day, International day, Fun Day, Sports Day, Mother's Day and Earth Day. One of the highlights of the year was the Hajj simulation by the KG. We believe that these kinds of experiences provide essential learning opportunities that help foster curiosity as well as inspire connections about the world around them.

This year, we also strengthened our literacy program by providing students with activities such as "Dress Up As Your Favorite Book Character Day" wherein students dressed up in their favorite book character, our successful Book Fair in October, and our "Reading Buddies" with Grades 1-4 students. Our goal is to instill reading as a time of peace, of adventure, of exploration and of discovery. Reading is fun!

We are now on our second year of our Character Counts program and we are pleased at the results we are reaping. The program teaches the students 6 universal core values such as Trustworthiness, Respect, Responsibility, Fairness, Caring and Citizenship. We believe that good character is learned through those around us and so it is vital that we teach and model these behaviors. Each month, students are chosen to be recognized for their excellent behavior.

For the month of March, here are the recipients of our Character Counts program for "Caring":

KG1A: Lynn Jaffal, Fay Al Alawi, Sultan Taryam, Obaid Al Ghas and Khalifa Abdallah

It has been my pleasure to have served and worked with so many wonderful people this year and from the administration and staff here at SAIS KG, we wish you much adventure, relaxation, and quality family time and we hope to see again in the first day of school! Inshallah.

Sincerely,

Dionne Pauline U. Zantua

From the desk of the IT Head of Department, Ms. Carole Abboud

IQ test, computer workshops, photo shooting, photo editing, movies, web designing, animated children stories were some of the many activities that our IT Fair, held on May 17th, was encompassed with this year.

This fair revealed the tremendous talents that SAIS is brimming with. The remarkable job that students and teachers presented was well received, and equally valued, by everyone - administration, and audience alike.

Another credit that SAIS claims proudly is the recognition that our student Hamza Syed Khaja Saifuddin of grade 11 received when he was chosen one among the top ten winners in the web designing competition that was held by the Jubilee School in Jordan. When you know the scores of schools from the Middles East and Gulf Regions that participated in the event, you'll get to know the magnitude of this achievement.

Congratulations SAIS, Congratulations students!
